

MAKE IDEAS REAL

to ensure a safer and connected world !

ROHDE & SCHWARZ

Make ideas real

 **Company:** Rohde & Schwarz GmbH & Co. KG

 **City / Region:** Munich

 **Working time:** Full-time

 **Contract type:** Limited

 **Job ID:** 695

With its leading solutions in the areas of Test & Measurement, Technology Systems and Networks & Cybersecurity, the Rohde & Schwarz technology group is one of the pioneers of a secure and connected world. Founded more than 85 years ago, the Group is a reliable partner for its customers from the private and public sectors around the globe.

Internship (m/f/d) development and test of highest frequency measurement and switching solutions

Join our Test and Measurement Division in München (Germany) at the earliest possible date

Your tasks

- Set-up of an automated test system for highest frequency measurement and switching solutions
- Characterization and test of our highest frequency measurement and switching solutions at component, module and device and system level
- Optimization of test and calibration methods and their implementations.

Your qualifications

- Academic studies in electrical engineering, telecommunication engineering, physics or an equivalent discipline
- Experience with test equipment, especially vector network analyzers
- Experience with high frequency active and passive components like switches, attenuators, amplifiers, filters and mixers
- Self-starting mindset combined with willingness to shoulder responsibilities within a project Team environment as well as a productive and goal-oriented approach to work
- Good command of written and spoken English

Our offer

You can expect very good payment, excellent terms and outstanding opportunities for growth and development. We will also be happy to help you find a room.

We have a number of favorably priced accommodations at our disposal. We offer mandatory internships as well as voluntary internships. Combining a voluntary internship with a mandatory internship is possible.

Interested?

Our recruiting team is looking forward to your application. It's best to apply online with the reference number 695. Our colleague Anna Geisberger is happy to answer any additional questions. Kindly get in touch via LinkedIn or Xing.
